## TASK 2 — Prompt Optimization Exercise

### Step 1: Choose ONE prompt

Write an engaging Instagram marketing post for a new eco-friendly water bottle targeting young professionals aged 22–35.

\*\*\*\*\*

## Step 2: Improve it (Optimization) :

### Optimized Prompt

Create a high-converting Instagram marketing post for a new eco-friendly water bottle.

### Requirements:

- Target audience: young professionals aged 22–35
- Tone: modern, motivational, and persuasive
- Highlight sustainability, reusable design, and health benefits
- Include a strong hook in the first line
- Include 3–5 relevant hashtags
- Keep it under 120 words

## Step 4: Refine again (important part!)

### Example refined version:

Improve clarity and make the post more emotionally engaging. Add urgency and lifestyle appeal.

---

## Step 5: Add reflection

Adding structure, constraints, and audience context improved the quality and relevance of the AI response. Iterative r
